Explanation of Appeal

I purchased my home in Sept 2013. I take pride in my home and neighborhood. I pay property tax. I went door to door and got 4 out of 6 houses to sign in favor of my petition. I dont think it is fair to the home owners to have to put up with all the issues that only allowing parking on this side cause. Aside from the normal complaints of trash and snow plows shoving snow into our driveways because they have to plow around all the cars from the apartment, the huge issue for me is lack of privacy. Everyday there is a minimum of two cars parked right in front of my window. The other day there were people sitting in the car for over an hour. I dont want to have to sell my home but I dont want to have to see that everyday. I would like to be comfortable in my own home that I paid a lot of money for. I dont -

Explanation of Appeal

understand why some one in the apartments accross from me is allowed to have their boat & classic car in the parking lot, there for not leaving enough room for the people that live there causing them to use the space in front of my house as a parking lot. According to the aerial photo you sent in the mail they have been there a long time. There has to be a sowtion to this problem. Contantly calling the police dept. is not a long term solution. They have been great but there has to be another approach as I am sure they have much more important issues to deal with.

Sincerely
Cynthia Adams
