**Minnesota River Valley Master Plan Update**

---

Date

3/11/2015

---

Description

Staff is in the process of drafting the Minnesota River Valley Master Plan document. As part of this planning initiative, staff met on February 24 with representatives of the United States Fish & Wildlife Service (USF&WS) to continue discussions of the master plan.

The draft master plan document is tentatively scheduled to be presented to the PARC on April 8, the Planning Commission on April 23 and the City Council on April 27. Following the Council meeting, the draft master plan will be available for public review on the City's website, and an open house to accept comments on the master plan will be scheduled for some time in May. Once public comments have been received, a final draft will be compiled and brought back to the PARC, Planning Commission and City Council for review and eventual approval.

Information on the draft master plan is available on the City website at: <http://bloomingtonmn.gov/minnesota-river-valley-master-plan>
