

Request for Council Action

Originator Engineering	Item Order 2015-901 Storm Sewer Maintenance Project
Agenda Section Consent Business	Date 4/6/2015

Description

The City Council is requested to consider ordering the 2015-901 Storm Sewer Maintenance Project. The project includes maintenance to the storm sewer system at approximately twenty four sites around Bloomington, including several flood mitigation improvements as identified following the June 2014 storms.

Residents living in the vicinity will be notified of the construction and informational meetings held, if requested.

Funding is included in the Storm Water Drainage Utility Budget under Fund 665546, formerly 530-8302-433-70-31, and no assessments will be involved in the project. The approved budget includes approximately \$1,000,000 for maintenance work. This work is accomplished in two parts – a summer project and a winter project. This project, the summer project, is expected to be approximately \$600,000.

A map has been included of the project sites, along with a listing of the proposed work.

The following schedule is proposed:

Council Order Project	April 6, 2015
Council Approve Plans and Specifications	April 20, 2015
First Advertisement	April 30, 2015
Open Bids	May 21, 2015
Council Consider Bids	June 1, 2015

Prepared by: Steve Segar, Civil Engineer

Presented by (if needed): Shelly Pederson, City Engineer

Requested Action

Staff recommends that the City Council order the 2015-901 Storm Sewer Maintenance Project.
