Collector Program

Policy

Bloomington Collector Street Striping Reconfiguration Policy and Program

Goals

- Improve driver safety by providing left turn lanes (where needed) and reducing vehicle speeds,
- Improve pedestrian comfort and safety by providing buffer between the sidewalk and vehicles (this also improves comfort of adjacent property owners)
- improve bike transportation system (implement ATP recommendations)

Costs

Implemented in conjunction with the routine Pavement Management Program to minimize costs. The paint will be replaced as part of the PMP project, this program identifies which configuration best meets the needs of the public.
