---

Date  
6/23/2015

---

Description

Mike Nelson, Director of Land development for Twin Cities Habitat for Humanity, will be present to update the HRA on current Habitat projects and programs. Mr. Nelson will also present examples of the current homes that Habitat is building through their sweat-equity homeownership program.

In addition, Mr. Nelson will discuss the possibility of the purchase of one of the HRA's single-family lots for inclusion in their homeownership program. Habitat is considering the purchase of the HRA's lot at 8346 Wentworth Avenue South. A sale to Habitat would require a discount from the \$65,000 asking price. The HRA last partnered with Habitat in 2007 to build a home on the 8900 block of Stevens Avenue South.
