

Request for Council Action

Originator Engineering	Item Acknowledgment of Proposed 2016 Overlay Streets
Agenda Section Consent Business	Date 10/19/2015

Description

It is requested that the City Council acknowledge receipt of the list of 2016 PMP overlay streets. Approximately 7.20 miles of roadway are proposed for overlay in accordance with the Council approved PMP overlay program. These street overlays are done without a direct assessment to the adjacent property owners. Project costs will be paid from the 4110 PMP Overlay Fund, and all other repairs are from various budgeted utility maintenance funds.

The 2016 PMP overlay project will also include the construction of a southbound right-turn lane on East Bush Lake Road at 86th Street. This turn lane was included as one of the near-term recommendations approved at City Council on June 2, 2014 as part of the Highwood Drive Intersection and Corridor Study. Project costs will be paid from available 4130 funds.

A map has been included showing these locations, along with a listing of the street sections.

The project will be brought to the Council at a later date for plan and specification approval.

Prepared by: Bob Simons, Civil Engineer
Presented by (if needed): Shelly Pederson, City Engineer

Requested Action

Adopt a motion to acknowledge receipt of the list of streets to be included in the 2016-102 PMP Overlay project.
