

# Request for Council Action

Originator Information Systems	Item <b>Agreement to obtain use of Pictometry system through Hennepin County.</b>
Agenda Section Consent	Date 12/7/2015

Description

Hennepin County has entered into an agreement for Pictometry, a hosted software system that collects, organizes, stores, displays, and allows access to a collection of oblique images, metadata, data layers, models, reports, and other geographic or structural visualizations or embodiments.

Under the terms of the agreement, Hennepin County has the right to allow authorized political units or subdivisions including cities or townships located in the boundaries of the County access to the Pictometry system and any delivered content associated with it. To take advantage of this no cost benefit, the City is required to enter into a three-year User Agreement. As the agreement has no dollar value and the term is multi-year, Council approval is required.

Requested Action

Council is requested to approve the Hennepin County User Agreement at no cost with a termination date of October 1, 2018.
