Re: Letter of Support for the City of Bloomington's Active Places Demonstration Project Application

Dear Mayor Winstead:

Galaxy Youth Centers would like to express its support for the City of Bloomington's Active Places Demonstration Project Application.

Our organization supports the City's long-term goal of increasing access to opportunities for physical activity within the community. We also support the City's efforts to garner community feedback regarding park infrastructure improvements, so those improvements will truly meet the needs of our constituents.

Galaxy Youth Centers looks forward to continued cooperation with the City of Bloomington as this project moves forward.

Please contact me with any questions or comments at skpowulu@isd271.org or 952-681-6510.

Sincerely,

Suzanne Kpowulu
