City of Bloomington

Regarding the property at 8100 Pillsberry Ave. We have decided to not go ahead with the three variances and to comply with the city code on the three items. We will be applying just for the CUP at this time.

The fence on the south lot was deleted at this time from our main drawing. We were told there is no code requiring us to have a fence there. With a 5 foot green space, we do not see any point on having one there anymore.
