

Request for Council Action

Originator Engineering	Item Acknowledgment of Proposed 2017 PMP Overlay Streets
Agenda Section Consent Business	Date 10/24/2016

Description

The City Council is requested to acknowledge receipt of the list of 2017 PMP overlay streets. Approximately 6.94 miles of roadway are proposed for overlay in accordance with the Council-approved PMP overlay program. These street overlays are done without a direct assessment to the adjacent property owners. Project costs will be paid from the 4110 State Aid PMP Overlay Fund, and all other repairs are from various budgeted utility maintenance funds.

As part of the 2017 PMP overlay project, Chicago Avenue from 83rd Street to North Terminus will have curb and gutter installed. This curb and gutter will be partially funded by a special assessment to the adjacent property owners following the City of Bloomington special assessment policy. The property owners have been notified and invited to attend the public hearing to order the 2017-101 PMP Street Reconstruction Project scheduled for November 7, 2016.

A map is attached showing these locations, along with a listing of the street sections.

The project will be brought to the Council at a later date for plan and specification approval.

Prepared by: Bob Simons, Civil Engineer
Presented by (if needed): Shelly Pederson, City Engineer

Requested Action

Recommended Motion: Move to acknowledge receipt of the list of streets to be included in the 2017-102 PMP Overlay project.
