

Request for Council Action

Originator Engineering	Item 34th at I494 Signal Maintenance Agreement
Agenda Section Consent	Date 10/13/2014

Description

Public Works is updating the signal maintenance agreement for the interchange at 34th Avenue @ I-494 to reflect the new equipment and signal systems that were added as a result of the interchange reconstruction project last year. The City has historically maintained the signal at that interchange, due in large part to LRT operations at the interchange and the specialized skills and knowledge required for such systems.

The enclosed agreement replaces the existing agreement to provide maintenance and operations for the interchange. Legal has reviewed and approved the resolution and agreement.

Requested Action

It is recommended that the Council adopt the resolution and approve agreement 02915 for operation and maintenance of the traffic control signal at the interchange of 34th Avenue and I-494.
